**Eleanore Gross-Ekowski : Floral Cross-Stitch** before purchasing it in order to gage whether or not it would be worth my time, and all praised Floral Cross-Stitch:

This presents a selection of 50+ colour cross-stitch patterns for floral designs. Instructions and photographs show how to create each of these flower patterns with cross stitch needlework. The patterns which include roses, tulips and hyacinths can be stitched onto napkins, towels, cushions, pillow cases and more. All that is needed is a piece of cloth, some thread, needles and scissors.
