Marie-Claire Blanckaert : Flowers By Jeff Leatham before purchasing it in order to gauge whether or not it would be worth my time, and all praised Flowers By Jeff Leatham:

1 of 1 people found the following review helpful. This is a book about beauty. By Cris-Cras Don't expect to find explanations on how to do those complicated flower arrangements. No. Also, don't expect those arrangements with hundreds of different flowers. No. THIS IS MUCH MORE. Jeff's flower arrangements are simple and that is where resides their beauty. The photos show how simple and outstanding are Jeff's arrangements and gives you many ideas on how you can create many amazing flower arrangements with just a bit of creativity and the right amount of daring! Because with a simple twist of the stems or the supposed unimaginative use of petals, Jeff does wonders for his compositions. Art compositions, by the way. Because this is it: amazingly beautiful photos of extraordinary simply art-crafted flower arrangements! And it's worth every cent! 1 of 1 people found the following review helpful. Yawn By MPC Direct Avoider Wow! I love Jeff's designs but this book was absolutely the most boring thing I've flipped through. It didn't really show his potentials and a designer. I'm a big fan of his works but not a fan of this book of his. Most of the photos seemed really out-dated or maybe it's just the photographer who didn't really know how to showcase the flowers. I don't recommend it. 0 of 1 people found the following review helpful. Five Stars By diana blue schmi delivered on time and great book

Book by Blanckaert, Marie-Claire

Divided into color schemes, Paris-based floral designer Jeff Leatham presents works ranging from simple bouquets to stunningly executed sculptural arrangements. -- Star Telegram You'll see in awesome photos, stunning arrangements created with a simple twist of great-looking stems (think calla lilies and tulips). -- Los Angeles Daily News
