AylwardA lot of pictures of beautiful antique notions, but not a lot in the way of information or even a clear goal for why this book exists. Oh, maybe it's to promote Tinsel Trading in New York?! There are several craft projects that serve only to utilize the stock found at Tinsel Trading. Without access to TT items, the craft projects are basically useless. If you want a book with pretty pictures of buttons and thread and trim, then knock yourself out, otherwise, go for something with more weight.0 of 0 people found the following review helpful. Small projects, fun read, beautiful picturesBy Kat =^.=Lovely neat book with patterns in the back in a folder for safe keeping. Lots of fun projects to do, beautiful pictures and tutorials. I purchased one for myself and one for my sister so we can do projects long distance! All the French General items are interesting and great content.0 of 0 people found the following review helpful. Four StarsBy Mary HNice book with patterns for some projects. Will be fun to try them. Glad I purchased this!
