I know what works and what doesn't work for well endowed ladies, no matter the shape. The items in this book are so simplistic and not necessarily in the flattering way. Potato sack shape is not the solution.Full figured ladies are constantly in a search of interesting designs that will augment what needs to be augmented and hide the flaws.I know our possibilities are somewhat limited, but this book is an offense. It's saying "You are fat, so all you deserve is a bunch of loose cover-ups". By the same token, short skirts and off-the-shoulder Tees? Really?I don't recommend this to anyone. Don't be fooled by Marilyn Monroe-esque lady on the cover.6 of 6 people found the following review helpful. I love this bookBy RaineyI love this book! The patterns fit me really well, which is something I have had trouble with for years. There are a number of pencil skirt patterns, pants patterns, two dresses and lots of tops.1 of 1 people found the following review helpful. plan to in a week.
