Paul E. Kennedy : Fun with Birds Stencils (Dover Stencils) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Fun with Birds Stencils (Dover Stencils):

4 of 4 people found the following review helpful. Much fun on windows as well as clothing and paper. By retired teacher We used these sturdy, well-cut stencils and washable window art markers to draw on our large windows, trying to prevent birds from diving into the glass. Dover's Snowflake stencils seemed to be effective for that, and looked really pretty during the holiday season. We have also decorated a child's apron chef's hat with Dover's Emergency Vehicles (firetrucks) and fabric paint and brushes. The 10 Dover stencil books we purchased have all been excellent quality, and used on paper as well as fabric and glass. All of the stencils are on individual pages and measure about 4 to 4 1/2 inches. Great gift for our grandchildren. 2 of 2 people found the following review helpful. For people who can't draw By KR The stencils are smaller than I first imagined. However they are good designs. If you can't draw birds, this

is a good starting point. They are made of laminated paper. They wil hold up with care.3 of 3 people found the following review helpful. Fun with Birds StencilsBy CustomerI love the subject. Used fabric markers which help some on controlling leakage under the stencils. I used a stencil cutting knife on the stencils - which does take some practice.

This charming, fun-to-use book introduces youngsters to fascinating creatures of the air. Six brightly colored, pre-cut stencils no cutting or punching out necessary make it easy for children to outline a graceful swallow, an intriguing toucan, an eagle in flight, and three other birds. Entertaining and educational, this durable little volume promises hours of creative fun at home or in the classroom.
