Marty Noble : Fun with Fire Trucks Stencils (Dover Stencils) before purchasing it in order to gage whether or not it would be worth my time, and all praised Fun with Fire Trucks Stencils (Dover Stencils):

Small, entertaining booklet/great for travel and other waiting timesBy ApparentNewParentExcellent value, and can keep young children entertained for a few minutes.Now these books are small--but that's kind of the point of these book, I think. They're portable, easy to throw in a briefcase or purse or back of the car, and handy to give to children at the doctor's office waiting room, or in an airport, or on a car trip, or at a restaurant waiting for food, or really, just anywhere where you want to have a short educational (or semi-educational) activity.And I gotta admit, I like that this is an "un-plugged" option. Not on a phone or tablet or screen--just a good old-fashioned book with simple activities, vivid illustrations, and things to *do*--that is, an active, tactile

experience--even if the activities are quite simple (like peeling stickers). We don't leave home without a few of these. (Just be prepared, if you haven't ordered these before, for a small booklet, not a *book* book.) By the way, we also used these as party favors for a recent kid's firetruck-themed birthday party, and they were a big hit. 0 of 0 people found the following review helpful. Great! By STSuper happy with this book. I bought it on a whim as the price was great and my son received a Crayola marker air brush for his birthday; we were looking for more stencils. My biggest concern before ordering is I wasn't sure what the pages would be like. I just want to note they are heavier than a regular piece of paper and coated, as opposed to thin paper. For this reason I think they will hold up for multiple uses. The pages of the book were stuck together when we received them but they easily pulled apart -- however this isn't something I would let my 7 year old do on his own as they may have ripped it. 2 of 2 people found the following review helpful. Four firetruck stencils with one police car By retired teacher These stencils are on heavy coated stock, one 5" vehicle on each page. The stencils are cut perfectly with only a few small parts to push out easily with my finger. Our 4-year old grandson was able to decorate a door window using window markers and these stencils. I have used several of the stencils with red fabric paint and small art brushes on a child's size white apron and chef's hat. They can be a bit tricky to keep flat for the liquid paint, but some double-sided photo tape solved that problem. I wiped off the stencils with a damp paper towel, and they are ready to reuse.

Note: Dimensions of the book: 4 x 0.3 x 5.5 inches This collection of pre-cut designs features three ladder trucks: an airport fire truck, a water pumper, and a fire rescue truck. Loads of fun for fire station fans, these stencils are also great for adding eye-catching designs to nursery walls and furniture.
