Garden MosaicsBy JT HillIf you are a beginner, this book has a lot of pretty designs to try. I didn't love every single project, but I plan to try most of the items. I really liked the gallery ideas in the back of the book--lots of creative ways to modify these patterns. This book would also be a good beginner book for children to learn mosaics, as it has a number of stepping stone ideas. Overall, I think this is a nice book to add to your library if you are a beginner and need some creative ideas to get you started.2 of 3 people found the following review helpful.
