Mini-manual for the ICOM ID-5100A /E Transceiver and it's CS-5100 Programming Software. Mini-manual size, 4.5x8 inches. Thirty-two high-quality laminated pages, covering use and programming of the microSD card, using the CS-5100 Programming software and all features of the radio. Fully explains the operation of, and importing D-STAR repeater data into the Repeater List memories. Nifty! Ham Radio Mini-Manual Provides clear descriptions for all controls, setup menus and modes of operation. Simple step-by-step instructions, augmented with useful hints and explanations. Indexed and organized for quick access to what you need by mode of operation. Color-coded, clear and easy to understand instructions that clarify operation. Smaller, faster and easier to use than the factory instruction manual. Laminated for durability and water resistance, great for GoKits. Compact: 4.5 x 8 inches, fits in a map pocket,

small enough to be kept with the radio. Program your ham radio wherever you are at. An essential operating accessory!
