**Maruscha Gaasenboek Tine Beauveser : Iris Folding Compendium Part 3 (Crafts Special) (Pt. 3)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Iris Folding Compendium Part 3 (Crafts Special) (Pt. 3):

0 of 0 people found the following review helpful. Good basic designsBy Connecticut bookwormThere's a good selection of patterns for iris folding in this compendium. I later purchased the volume that contains all 3 parts, and gave this one away. Directions are clear, although it helped me to have a friend show me basic iris folding techniques first.

Iris Folding Compendium Part 3 - Colourful paper and a simple folding technique form the irresistible combination which many people know as Iris folding. This third compendium contains the books Iris folding for Celebrations, Colourful Iris Folding and Stylish Iris Folding. Lots of wonderful Iris folding cards to make in one book.

About the AuthorThe authors have written 10 different very successful books on Iris folding.
