Violette : Journal Bliss: Creative Prompts to Unleash Your Inner Eccentric before purchasing it in order to gage whether or not it would be worth my time, and all praised Journal Bliss: Creative Prompts to Unleash Your Inner Eccentric:

2 of 2 people found the following review helpful. Back for a second copy, my daughter has mine. By Regina Bowler I love Violette's whimsical and creative style, perfect to teach art journaling to young girls. I bought this book in 2010, when I was just starting to make art journals. Since then I've collected dozens of other books and journals, and I also have amassed a large supply of art supplies. I find Violette's book very helpful in teaching art journaling to young teenage girls. I also purchased a separate DVD, "Teens Dream Journal". With a trip to the art supply store becoming more and more expensive, I find her supply list easy on any budget. Look around at what you have already and get started journaling. 2 of 2 people found the following review helpful. Cute ideas, very perky, feel good art book! By Kam I enjoyed skimming through this at a friend's house one day on her coffee table. I loved it so much I wanted a copy for myself. It's full of cute ideas that any level can begin with. The author has a great sunny personality and I

enjoyed reading her ideas as well as learning from her techniques. The book is very warm, personal, and yet full of technique. This book will show you color techniques that you can use to decorate media with which is what I was looking for. Its a great inspirational piece. Easy to read, and eye catching. Great for any age. Kids would enjoy this as well. There were some ideas that I had not thought of before that I will be using in the future. Overall, I was most happy that this book inspired me to be creative even though I'm NOT a professional artist. Reading it made me feel that ANYONE can become talented if their heart is in it. 0 of 0 people found the following review helpful. Love it!! By V. Cull This is by far the best art journaling book I've ever purchased.....and I have bought quite a few. It's full of inspiring art and how-to's. I've been working on art off and on ever since I purchased it!

About the Author Violette's work can be found in North Light's Living the Creative Life and Kaleidoscope, and she is frequently featured in magazines including Creative Home, Cloth Paper Scissors, Somerset Studio Stamp It, Artella and many more. She teaches art-journaling workshops and has an active Web site, www.violette.ca.
