GREAT HOMESCHOOLING RESOURCE By Billie Glazier As a homeschooling mom I am constantly seeking resources to make learning fun for my kids, but having three kids ranging from ages 5 to 19, finding something that works for everyone is a true feat. April is National Kite Month according to our edhelper.com calendar of special days and this book has triggered a desire for me to run our and build kites all month. Thanks Margaret Greger for such a lovely book!. Billie Glazier 1 of 1 people found the following review helpful. Its nice having some ideas and instructions on kite making instead ... By David Douglas Is a copy of a book my relatives have. They made a lot of the cousins kites from information written in the book. Its nice having some ideas and instructions on kite making instead of just buying kites. A great book for those wanting to, or willing

to make the kites.0 of 0 people found the following review helpful. Like ! ! !By K. BausGood instructions on how to build a kite.

"The most influential kitemaker you never heard of." American Kite. This thorough guide by an expert kitemaker includes easy-to-follow, illustrated instructions for creating and flying more than fifty kites. An easy and comprehensive introduction for anyone interested in these amazing flyers, the book opens with the history and science of kites, followed by a section on kite construction and flying. Organized according to kite types, Greger's book includes chapters on everything from simple bag kites to Vietnamese, Snake, Dutch, Dragon, Bullet, Delta, and Flowform flyers. She even tells how to make windsocks and toy parachutes!The book is a great aid for classroom teachers, camp counselors, and parents, offering practical suggestions on everything from setting up a workspace and observing safety rules to launching the kites and bringing them in. "Kites for Everyone is like having a veteran kite maker in the classroom," says Science and Children.
