Anne Akers Johnson : Klutz Knitting Book Kit before purchasing it in order to gage whether or not it would be worth my time, and all praised Klutz Knitting Book Kit:

16 of 16 people found the following review helpful. Everything you need to get started knitting right away.By Alanna K. BakerFantastic kit! Absolutely everything you need to get started, right away. Clear, step-by-step instructions. Cute projects. Pretty yarn (I got tons of compliments posting my progress on Facebook.) I'm almost done with the purse, going to do the phone sock, and then maybe tackle something more complex...17 of 17 people found the following review helpful. Great way to learn knitting!By Anon, Arlington, VAI bought this for a first grader to learn knitting; very happy with this book. I enjoyed the clear instructions and great illustrations, and it was handy to have the yarn, needles, etc. included.5 of 5 people found the following review helpful. Thanks for helping me learn my new addictionBy CustomerThanks to this little set and Youtube, I learned how to knit and have found a hobby that I am

addicted to. I highly recommend this to anyone that wants to learn. It comes with enough yarn for a few projects. I suggest buying more yarn because you will want to try more projects.

Knitting takes the novice crafter from step zero (how to hold the needles and yarn) to look-what-I-made finished projects. Unlike other how-to-knit books, the directions here are clearly explained in plain language with no confusing abbreviations, diagrams, or codes. The projects-a long skinny scarf, a cozy hat, a sunglass case, a cell phone holder, and more-are all teen-tested and a far cry from your grandmother's afghan. Altogether, it's everything anybody needs to start knitting now.
