14 of 14 people found the following review helpful. sweatersBy B. KoehnThis book was not at all like I expected. First of all....most of the book is stories about Elizabeth. I was wanting more information about seamless sweater design and instruction. If you want to know more about Elizabeth's personal history then this book is for you. If you need instructions for sweaters, I would suggest Knitting without Tears or Knitting workshop. I am reselling my book.1 of 1 people found the following review helpful.
