**Erika Knight : Knitting for Two: 20 Simple Designs for Expectant and New Mommies and Babies** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Knitting for Two: 20 Simple Designs for Expectant and New Mommies and Babies:

0 of 0 people found the following review helpful. Lovely knitting designs for babies and Mums! By tinyI love my new knitting pattern book by Erika Knight. I had been searching for the lacy bonnet pattern for ages, so I was very pleased when it arrived so promptly. There are many other sweet and charming patterns for babies and mothers in this book. 1 of 1 people found the following review helpful. it's ok.. By rebeccaI ordered this book when I first suspected we were expecting. I had dreams of making beautiful little sweaters, and all of that. well, I got the book, and the book is very beautiful. some very lovely patterns. so far I have made two and a half (I'm in the middle of a project) projects out of the text and I am only mildly satisfied with the results. The first project I made was the pappoose. It's ok. but it turns out really to be nothing more than a bag to put the baby in. boxy, uncute, and boring as all heck to knit. I would never make it again or recommend it. in the interim I made one of the baby sweaters, because it took FOREVER to make the pappoose. The sweater turned out alright. it knitted up faster than the pappoose, but again, the directions were only ok in

clarity, and the results only ok. i would recommend borrowing this book from the library or from a friend before buying it. I only use it because it's the only baby knitting book i have (though I hope to remedy that situation). and the idea that you could have made all of these beautiful little things by the time your bundle of joy appears is ridiculous. by the time you finish the gorgeous purple long sweater, i imagine that the wee one is probably already a month or two old, even if you started out knitting the project knitting pretty early in the pregnancy. (but i may just be a slower knitter.)

Very pretty knits!By MaggieI have already knitted two pieces from this book and it has some really beautiful knits in there, the only thing I would have added as well is a higher age group for the children, most knits end at age 9 months so if you want to knit some of these beautiful pieces in a larger size, you would have to calculate yourself how many stitches and inches to add to each piece, which I am planning to do, as some clothes are just too cute to wear only for a few months.I am not planning to knit anything from the mothers section, even though it does have some really nice pieces, but I am too far along already and I never purchase or make something for the pregnancy itself (besides a couple of pants maybe), as I personally think it is a bit of a waste to get rid of the stuff after only nine months.

Pregnancy and the special time during the first year of a baby's life is a time for nesting and nurturing-and the perfect time for an expectant or new mother to take up knitting. In *Knitting for Two*, renowned knitwear and textile designer Erika Knight presents a delightful collection of knitting patterns for soon-to-be and new moms and their babies. Knitters can choose from 20 easy-to-knit projects in a variety of color schemes. There are knitting projects using easy-care yarns in soft neutrals accented with baby blue, pink, and green; or fine yarns like cashmere in pastel shades of pink, blue, green, taupe, and cream. Other projects use vibrant colors like lime, fuchsia, and red. The patterns for mothers-to-be are stylish, feminine, and sexy and include a long-sleeved, chunky rib wrap; a cardigan with chiffon rose decoration; and a long twinset. The baby patterns are sized for premies and 0-12 months, and include a round-neck sweater with shoulder buttons and matching pull-on pants, a lacy bonnet, and a pixie-style hat with earflaps.
