Lark Books : Stupid Sock Creatures Book Kit before purchasing it in order to gauge whether or not it would be worth my time, and all praised Stupid Sock Creatures Book Kit:

1 of 6 people found the following review helpful. Sock Puppet By I. Huerta The kit comes with everything you need, however, instructions are not easy to follow. I bought this for a 6 year old and ended up doing most of the work myself. 9 of 9 people found the following review helpful. We love Stupid Sock Creatures! By Joy Lozano-studstrup I picked this up at the local library...it just called to me from the shelf as I was checking out. My 14 yo took it over in the car and she made a creature the next day. What is wild is that our friend in Oregon picked up the book at her local library the very same day and one of my girl scouts said she saw it at the bookstore that day and asked for it for Christmas. We purchased the book/kit recently and my daughter has made 8 creatures and has asked for more socks. That takes care of the 'who does it appeal to?' question...women in their 40's and teen girls for sure, but my husband also loves the book and he's a kid at heart, so I guess that means everyone. The contents of the book...the instructions are right on. The author has been ever so generous with his knowledge. The kit comes with everything you need to get started, so I recommend buying that unless you have a stash of socks and buttons and such to work with. 4 of 4 people found the following review helpful. Fun and addictive By Leo Doll This book can provide endless fun for you and your socks. But watch out, it can also be addictive. Instructions are clear and easy to follow. Murphy also provides idea of what to do with the leftover bits of socks to make new creations, and follows up the book with pictures to inspire you to make your own. Once you get going, you could easily make a sock creature a night. I am a Mom of 2 very small children and even I have time to make these, which is good because many more small children are loving these creations from us.

Stupid Sock Creatures brought to life the most incredible, irresistible flock of wacky monster creatures ever seen on this planet. And with this wildly creative kit, its fantastically easy to create such characters as three-eyed Jordan, four-footed Estelle, and other wickedly funny soft toys to cherish (and covet). And you won't even have to raid your sock drawer, because all the necessary materials are here, starting with the Stupid Sock Creatures paperback. Also inside the kit: compacted polyester fiberfill stuffing, shrink-wrapped; one pair of patterned crew socks and one pair of solid-colored socks, each in a poly bag; 12 assorted buttons; 50 yards of polyester quilting thread; one sewing needle; one

five-inch doll needle; and three strips of assorted brightly-colored ribbon. Plus, there's an instruction sheet of brand new creature variations, not shown in the book. Crafters will want to stitch up an army of these kooky but cuddly creations!
