Visually appealing, quality book that teaches the Basic operations that all iPhone users need to know.By ChicagoVegasJackThis is a great basic book to get you going with your new iPhone. Many handy tips, However, it was written so a six grader could easily read and understand it. I found that a bit of a distraction. Not a great deal of depth, but will get you through the basics and teach you how to use your phone. It

took me an hour to read this book and apply the lessons to my phone. It also is good as a reference book. Great color and the quality of the pages made it visually appealing. I used it for my iPhone 5s. 1 of 1 people found the following review helpful. Waste of money By Customer Did not match my I6. Very disappointed 1 of 1 people found the following review helpful. Only Explains Some Features - Very Limited By Fitnessita Bought 2 of these so that I can explain to my 70-year-old immigrant mother how to use the iPhone 6. She lives in NYC and I live in Ohio. Being long distance, I tried to use this book by having her go to the appropriate page so that she could see the visual when I would tell her what to do. This book only shows some features. That's it. In trying to show her some basics, this book has not been useful because it does not cover these basics, e.g., cleaning various cache points and closing apps.
